

CNBC - Google Workspace For The Better News and Media

EIKON assists CNBC Indonesia to provide Google Workspace as solution for better security including deployment and data migration. EIKON also provides training, customer care and support for CNBC Indonesia post Go Live.

The challenge

In the business of news and television station in Indonesia, CNBC Indonesia is aware on the importance the security system for communication and collaboration. System reliability and the uptime are the top priority to ensure business runs well. Additionally CNBC Indonesia requires tools to share data and information securely, free of spam and virus for internal and external parties.

The solution

CNBC Indonesia teams are be able to access various applications using single account of Google Workspace. With GMail, communication is much more faster and reliable. Google Drive allows CNBC Indonesia team to collaborate easily and securely. Online meeting is now easy using Calendar and Google Meet, only using web browser and not requiring to install any additional application.

The results

CNBC Indonesia team is no longer require to deal with server uptime and spam or virus. No maintenance is required, thus cost and risk are significantly reduced. CNBC Indonesia is becoming more collaborative and productive at work when using Google Drive. All employees love Google Workspace for their day to day work. Importantly, CNBC Indonesia can focus on delivering what they are at best, News.

We can now collaborate and communicate easily and securely using Google Workspace. As a result we do not have to deal with infrastructure and we can focus on the main business. With assistance from EIKON Technology, we can utilize Google Workspace at best and at affordable cost.
