

CP Prima - Growing The Future with Google Workspace

EIKON assisted the Google Workspace migration including the change management. With EIKON as the service provider, the migration project was well organized and executed as planned. Post Go Live, EIKON also provides technical support for CP Prima.

The challenge

As an aquaculture shrimps and foods producer company, we are required to improve innovation and coordination between teams across the countries. Having a wide range of markets in the global area, secure communication and collaboration are the top priority. Further more, large data storage with reliable, fast, and low maintenance of infrastructure required to be more competitive in the market.

The solution

Google Workspace provides everything CP Prima required to communicate and collaborate among the teams. The use of Google Docs/Spreadsheets/Slides makes it easier for the team to work together in multiple locations. Large storage in Google Drive solves our storage needs. All the teams require to improve productivity at work is in one complete solution, Google Workspace.

The results

With EIKON's assistance, the migration process is completed in accordance within the timeline. CP Prima team can now benefit from Google Workspace solution. At an affordable price, the internal collaboration improves a lot and work done faster and more efficient. ICT team is no longer focus on problems or break fix in the operating systems or servers but rather to support the business processes.

Google Workspace has become CP Prima work culture. Work is done faster and more efficient. Since maintenance is no longer required, the ICT team can be more focus to support the business process instead of break-fix. EIKON helps to make business transformation happens in CP Prima with Google Workspace solution.
